Non-Fellowship Biosketch Formatting Guide: April 2022

OMB No. 0925-0001 and 0925-0002 (Rev. 10/2021 Approved Through 09/30/2024)

Step 1: Check for correct OMB No. Correct version is currently Rev. 10/2021 through 09/30/2024

Step 2: Check for consistency of name formatting (recommend Last Name, First Name). Do not include academic degrees.

OMB No. 0925-0001 and 0925-0002 (Rev. 10/2021 Approved Through 09/30/2024)

BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person. **DO NOT EXCEED FIVE PAGES.**

NAME: Hunt, Morgan Casey

eRA COMMONS USER NAME (credential, e.g., agency login): huntmc1

POSITION TITLE: Associate Professor of Psychology

EDUCATION/TRAINING *(Begin with baccalaureate or other initial [professional education, such as] nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*

Step 3: Check for eRA Commons username (required for all Senior/Key Personnel, Other Significant Contributors (OSCs), and other key individuals listed on the Research & Related Senior/Key Person Profile).

Step 4: List title of current position. Do not include institution or location.

INSTITUTION AND LOCATION	DEGREE (if applicable)	Completion Date MM/YYYY	FIELD OF STUDY
University of California, Berkeley, Berkeley, CA	BS	05/2003	Psychology
University of Vermont, Burlington, VT	PHD	05/2009	Experimental Psychology
University of California, Berkeley, Berkeley, CA	Postdoctoral	08/2013	Public Health and Epidemiology

Step 5: Include both institution **AND** location (city, state; or country if outside of US).

Step 6: List baccalaureate or other initial professional education first, followed by additional professional education/training. Include postdoctoral and residency training if applicable. Make sure to list the month and year of the end date.

Header Instructions (Per NIH Guidelines)

- **Formatting/Font:** Arial font size 11; 8.5x11 page; 0.5" margins
- **Name:** Fill in the name of the senior/key person or other significant contributor in the "Name" field of the Biosketch Format Page.
- **eRA Commons User Name:** A valid eRA Commons username is required for all Senior/Key Personnel, Other Significant Contributors (OSCs), and other key individuals listed on the Research & Related Senior/Key Person Profile.
- **Position Title:** Fill in the position title of the senior/key person or other significant contributor (OSC) in the "Position Title" field of the Biosketch Format Page.
- **Education/Training:** Begin with the baccalaureate or other initial professional education, such as nursing. Include postdoctoral, residency, and clinical fellowship training, as applicable, listing each separately. For each entry provide:
  - o   the name and location of the institution
  - o   the degree received (if applicable)
  - o   the month and year of end date (or expected end date).

Section A Formatting

A. Personal Statement

I am an Associate Professor of Psychology, and my research is focused ⟨associated with addiction. I have a broad background in psychology, with ⟨ethnographic and survey research and secondary data analysis on psych⟨PI or co-Investigator on several university- and NIH-funded grants, I laid t⟨research by developing effective measures of disability, depression, and ⟨the aging substance abuser, and by establishing strong ties with commun⟨to recruit and track participants over time as documented in the following⟨successfully administered the projects (e.g. staffing, research protections⟨researchers, and produced several peer-reviewed publications from each⟨experiences, I am aware of the importance of frequent communication an⟨constructing a realistic research plan, timeline, and budget. The current a⟨work. During 2015-2016, my career was disrupted due to family obligations. However, upon returning to the field, I immediately resumed my research projects and collaborations and successfully competed for NIH support. In summary, I have the expertise, leadership, training, expertise and motivation necessary to successfully carry out the proposed research project.

Ongoing and recently completed projects that I would like to highlight include:

R01 DA942367
Hunt (PI)
09/01/16-08/31/21
Health trajectories and behavioral interventions among older substance abusers

R01 MH922731
Merryle (PI), Role: co-investigator
12/15/17-11/30/22
Physical disability, depression and substance abuse in the elderly

Citations:

1. Merryle, R.J. & **Hunt, M.C.** (2015). Independent living, physical⟨ among the elderly. Psychology and Aging, 23(4), 10-22.
2. **Hunt, M.C.**, Jensen, J.L. & Crenshaw, W. (2018). Substance abuse and mental health among community-dwelling elderly. International Journal of Geriatric Psychiatry, 24(9), 1124-1135.
3. **Hunt, M.C.**, Wiechelt, S.A. & Merryle, R. (2019). Predicting the substance-abuse treatment needs of an aging population. American Journal of Public Health, 45(2), 236-245. PMCID: PMC9162292
4. Merryle, R. & **Hunt, M.C.** (2020). Randomized clinical trial of cotinine in older nicotine addicts. Age and Ageing, 38(2), 9-23. PMCID: PMC9002364

Step 1: Listing ongoing or recently completed projects (within past 3 years) is optional for Section A. If listing projects, ensure that this section is not simply cut and pasted from Section D (formerly "Research Support"), which is no longer available for non-fellowship applications). The correct order/formatting is as follows:

Project # (can include agency/sponsor name before #)
PI Last Name (PI), Role:
Dates of Project
Project Title

- Do **NOT** include aims or direct/indirect costs for each project.
- Do **NOT** include projects with end dates longer than 3 years ago.

Step 2: Listing relevant citations is optional for Section A. Ensure that <u>no more than four</u> publications or research products are listed. Recommend bolding or underlining name, as shown here. There is no citation style requirement, however it is recommended to have consistency with one style throughout the biosketch. Figures, tables, or graphics are **not** allowed.

Section A Instructions ([Per NIH Guidelines](#)):

- Briefly describe why you are well-suited for your role(s) in this project. Relevant factors may include: aspects of your training; your previous experimental work on this specific topic or related topics; your technical expertise; your collaborators or scientific environment; and/or your past performance in this or related fields, including ongoing and completed research projects from the past three years that you want to draw attention to (previously captured under Section D. Research Support).

- You may cite up to four publications or research products that highlight your experience and qualifications for this project. Research products can include, but are not limited to, audio or video products; conference proceedings such as meeting abstracts, posters, or other presentations; patents; data and research materials; databases; educational aids or curricula; instruments or equipment; models; protocols; and software. Use of hyperlinks/URLs to cite these items is not allowed. You are allowed to cite interim research products. Note: interim research products have specific citation requirements. See related Frequently Asked Questions for more information.

- Note the following additional instructions for ALL applicants/candidates:
  - If you wish to explain factors that affected your past productivity, such as family care responsibilities, illness, disability, or military service, you may address them in this "A. Personal Statement" section.
  - Indicate whether you have published or created research products under another name.
  - You may mention specific contributions to science that are not included in Section C. Do not present or expand on materials that should be described in other sections of this Biosketch or application.
  - Figures, tables, or graphics are **not** allowed.

Section B Formatting

B. Positions, Scientific Appointments, and Honors

Positions and Scientific Appointments

2021– Present	Associate Professor, Department of Psychology, Washington University, St. Louis, MO
2020 – Present	Adjunct Professor, McGill University Department of Psychology, Montreal, Quebec, Canada
2018 – Present	NIH Risk, Adult Addictions Study Section, members
2014 – Present	Board of Advisors, Senior Services of Eastern Missouri
2011 – Present	Associate Editor, Psychology and Aging
2009 – Present	Member, American Geriatrics Society
2009 – Present	Member, Gerontological Society of America
2006 – Present	Member, American Psychological Association

Honors

2020	Award for Best in Interdisciplinary Ethnography, International Ethnographic Society
2019	Excellence in Teaching, Washington University, St. Louis, MO
2018	Outstanding Young Faculty Award, Washington University, St. Louis, MO

Section B Instructions (Per NIH Guidelines):

- List in reverse chronological order all current positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary). High school students and undergraduates may include any previous positions. For individuals who are not currently located at the applicant organization, include the expected position at the applicant organization and the expected start date.

- List any relevant academic and professional achievements and honors. In particular:
  - Students, postdoctorates, and junior faculty should include scholarships, traineeships, fellowships, and development awards, as applicable.
  - Clinicians should include information on any clinical licensures and specialty board certifications that they have achieved.

Section C Formatting

C. Contributions to Science

1. My early publications directly addressed the fact that substance abuse is often overlooked in older adults. However, because many older adults were raised during an era of increased drug and alcohol use, there are reasons to believe that this will become an increasing issue as the population ages. These publications found that older adults appear in a variety of primary care settings or seek mental health providers to deal with emerging addiction problems. These publications document this emerging problem and guide primary care providers and geriatric mental health providers to recognize symptoms, assess the nature of the problem and apply the necessary interventions. By providing evidence and simple clinical approaches, this body of work has changed the standards of care for addicted older adults and will continue to provide assistance in relevant medical settings well into the future. I served as the primary investigator or co-investigator in all of these studies.

   b. Shaft, B.M., **Hunt, M.C.**, Merryle, R., & Venturi, R. (2014). Policy implications of genetic transmission of alcohol and drug abuse in female nonusers. International Journal of Drug Policy, 30(5), 46-58.

   c. **Hunt, M.C.**, Marks, A.E., Shaft, B.M., Merryle, R., & Jensen, J.L. (2015). Early-life family and community characteristics and late-life substance abuse. Journal of Applied Gerontology, 28(2),26-37.

   d. **Hunt, M.C.**, Marks, A.E., Venturi, R., Crenshaw, W. & Ratonian, A. (2018). Community-based intervention strategies for reducing alcohol and drug abuse in the elderly. Addiction, 104(9), 1436-1606. PMCID: PMC9000292

2. In addition to the contributions described above, with a team of collaborators, I directly documented the effectiveness of various intervention models for older substance abusers and demonstrated the importance of social support networks. These studies emphasized contextual factors in the etiology and maintenance of addictive disorders and the disruptive potential of networks in substance abuse treatment. This body of work also discusses the prevalence of alcohol, amphetamine

   networking approaches can be used to mitigate the effects

Complete List of Published Work in MyBibliography:
https://www.ncbi.nlm.nih.gov/myncbi/1ICifFFV4VYQZE/bibliography/public/

Section C Instructions ([Per NIH Guidelines](#))

- Briefly describe up to five of your most significant contributions to science. The description of each contribution should be no longer than one-half page, including citations.

- While all applicants may describe up to five contributions, graduate students and postdoctorates may wish to consider highlighting two or three they consider most significant.

- For each contribution, indicate the following:

  - the historical background that frames the scientific problem;
  - the central finding(s);
  - the influence of the finding(s) on the progress of science or the application of those finding(s) to health or technology; and
  - your specific role in the described work.
  - Figures, tables, or graphics are not allowed.

- For each contribution, you may cite up to four publications or research products that are relevant to the contribution. If you are not the author of the product, indicate what your role or contribution was. Note that while you may mention manuscripts that have not yet been accepted for publication as part of your contribution, you may cite only published papers to support each contribution. Research products can include audio or video products (see the [NIH Grants Policy Statement, Section 2.3.7.7: Post-Submission Grant Application Materials](#)); conference proceedings such as meeting abstracts, posters, or other presentations; patents; data and research materials; databases; educational aids or curricula; instruments or equipment; models; protocols; and software or netware. Use of hyperlinks and URLs to cite these items is not allowed.

- You are allowed to cite interim research products. Note: interim research products have specific citation requirements. See related [Frequently Asked Questions](#) for more information.

- You may provide a URL to a full list of your published work. **This URL must be to a Federal Government website (a .gov suffix).** NIH recommends using [My Bibliography](#). Providing a URL to a list of published work is not required.

- Descriptions of contributions may include a mention of research products under development, such as manuscripts that have not yet been accepted for publication. These contributions do not have to be related to the project proposed in this application.
